FSD and CESSDA in EOSC

Finnish Social Science Data Archive - FSD

- National mission for Tampere University
- National Service Provider for CESSDA ERIC
- Expert organisation on survey data and qualitative (often textual) data collected for research purposes

Consortium of European Social Science Data Archives - CESSDA European Research Infrastructure Consortium - ERIC

- Distributed infrastructure
- Distributed national services + Central Services

Mission for CESSDA & FSD in EOSC

▶ We need thematic layers in EOSC to serve discipline-specific requirements of academic communities.

▶ Building SSHOC in EOSC

  ▶ leverage and interconnect existing and new infrastructures from the SSH ERICs and foster interdisciplinary research and collaboration

  ▶ Project ended, RI cooperation continues

▶ Contributing to wider cross-disciplinary projects

▶ Meaningful and worthwhile European infrastructure for researchers within EOSC

Support for long-term access

▶ Trusted repositories – certified repositories

    ▶ implements the FAIR data principles responsibly

▶ FAIR into practice to provide long-term access

    ▶ Discipline-specific expertise to share and preserve data so that reusability is the best possible from the researchers' point of view as well as legally sustainable

    ▶ Standardised metadata (DDI, controlled vocabularies, PIDs…)

    ▶ Standardised data processing (including anonymisation & pseudonymisation)

    ▶ Standardised archival processes (OAIS), shared tools …

Thank you!
